BHC closed arm single seat

BH33 closed arm loveseat

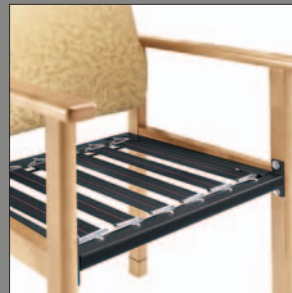

BOC-RT closed arm arm single seat, BT45 connecting table, BOCCC-LTRT open arm three seat, BT45 connecting table, BO33-LT open arm loveseat

#### Seat Construction

Briar's seat frame is fully welded structural steel to ensure optimum strength and stability, while using an active seat suspension for comfort.

#### Back Cushion

The back upholstery cover slips over the cushion and zips securely into place. The ingenuity and simplicity of Briar's engineering allows for in-field replacements in minutes.

## Briar™ Multiple Seating

Versatility is a hallmark of Briar multiple seating. Whether you need to maximize space or direct traffic flow, you can achieve it with this line.

Closed and open arm versions are available in one, two- and three-seat units and a loveseat. Four connecting table choices are also available (center, end, 45° and 90°). The endless number of combinations, coupled with the ability to add, remove or rearrange units, makes space planning a breeze.

Briar's versatility extends to its finish options as well.

The hardwood frame and connecting tables offer nine selections and are finished with conversion lacquer process for durability. Optional arm caps can be specified in black urethane or upholstered to match the chair. Upholstery selections include Pallas® Textiles, Crypton®, Gore™ Seating Protection and COM. Add visual interest by specifying contrasting fabric. When suitable fabric is selected, the seating meets TB133. An optional moisture barrier is also available.

Briar multiple seating meets your design needs without sacrificing comfort, convenience and quality.

A clean out area between the seat and back makes cleaning quick and easy. Backed with a lifetime warranty, Briar multiple seating is a perfect solution for public spaces.

FOC-LT open arm single seat with optional urethane arm caps

### Installation

With the attached hardware and patented connection process, field installation is quick and easy. These metal-to-metal connections provide the ultimate in strength and stability. This tandem process allows for multiple connections in any length.

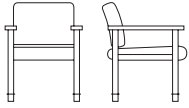

### Arm Caps

Briar's three arm cap options provide unique design flexibility. Standard in solid hardwood, or optional upholstered or black urethane. Note: The urethane cap option does not comply with TB133.

## ■ Specifications

### One / Two / Three Seat Units:

**BOC Chair – Open Arm (shown)**  
**BHC Chair – Closed Arm**  
 W 23.5 D 26 H 33.5  
 Seat: W 20 D 19 H 18.75
